

Military Pathway to Licensure 68V to Respiratory Care Practitioner

Kentucky requires a state professional license for those who are seeking to practice respiratory therapy. State licenses are obtained by meeting educational pre-requisites, industry level certification, and by submitting an application and fee to the Kentucky Board of Respiratory Care.

Educational Requirements

Transitioning Army Respiratory Specialists 68V have fulfilled educational requirements (IRTP equivalent to Associate's) during active service and are eligible to sit for the CRT or RRT certifications.

Industry Level Certifications

In order to obtain a CRT or RRT certification, applicants must have graduated from a respiratory therapy program accredited by CoARC (Commission on Accreditation for Respiratory Care) and have taken the:

TMC
Therapist Multiple-Choice

CSE
Clinical Simulation Exam

More information pertaining to the CRT or RRT certification can be found on [The National Board for Respiratory Care website.](#)
