

Accelerated Pathway to Licensure Medical Imaging

In order to receive licensure as a medical imaging professional in the state of Kentucky, a transitioning service member in the medical imaging field must have either graduated from an accredited program and passed the national exam administered through ARRT or NMTCB, or is applying through reciprocity with another state.

Step 1: Determine Your Pathway

Accredited Degree vs. Reciprocity
201 KAR 46:040

Accredited Degree

Reciprocity

Proof of graduation from a program accredited by JRCERT or JRCNMT

Successfully passed the national exam administered by ARRT or NMTCB

An active valid, and in good standing, medical imaging license with another state

5

Minimum of 5 years industry-related work experience

Certificate of licensure by a national organization [refer to KRS 311B.020 (11)]

Continuing education credits

Step 2: Submit an Application to KBMIRT
